- Lootah Group has diversified activity in the field of Manufacturing, Construction, Trading, Real Estate, Ready Mix and Technology.

Lootah Industries  
Lootah Fabrication  
Lootah Metal co  
Lootah Fiber Glass  
Lootah Cementation  
Lootah Building Construction  
Lootah Carpentry  
Lootah Bitumen & Road Works  
Lootah Marbles

Lootah Real Estate  
Lootah Metal Profiles  
Lootech  
National Ready Mix Company  
National Steel  
National Aluminum  
Alpha Emirates Food Products  
Dubai Sand Purification  
Emirates Foam

### **Our Mission**

To expand the attained position in our market, we distinguish ourselves as a specialist in engineering, production and after sales of massive and advanced lifting solutions, which present an optimal performance.

### **Total Heavy Load solutions**

We approach every project with the same sense of creativity and efficiency. Your inspiration and our knowledge in cranes make an impressive combination that delivers tailor-made crane systems, that saves time as well as money.

### **Custom-made**

We provide unique pieces of equipment that come with all necessary certificates and are designed to make your work easier.

### **Trustworthy Partnership**

We will guide you personally in your search for the best lifting or transport solutions. Over the years Lemmens crane systems has built up long-term relationships with many customers.

### **Final Assembly**

The final product is exactly what you requested and is designed to optimize production in your company

## Engineering

In our company's we transforming your ideas into real operating equipment. Specialists super- vise each step of the process very carefully, from the design stage, manufacturing and assembly, right through to the delivery of the crane systems

### Maximum Usability

You can rest assured that your plant size will always benefit from the best equipment and services.

### Focus on Quality

Lemmens has been focusing on the development an d implementation of lifting and transport custom-made solutions since 1969.

### Product Innovation

The engineering department has professional design engineers working with 3D CAD work-stations, producing mechanical and electrical drawings.

## **Production**

**Our experienced mechanics...  
...transform ideas into crane systems**

### **Modern Work Environment**

Experienced mechanics use the latest machinery to produce a wide range of lifting and transport systems.

### **Production Facility**

In our workshops in Netherlands, Belgium, UAE and Russia. We produce a wide range of lifting and transport system. Also we are doing FAT (Factory Acceptance Test) in our premise before dispatch.

### **Mechanical Assembly**

We transform your ideas into actual operating equipment. We assure that your plant site will always benefit from the best equipment.

### **Electrical Assembly**

The switch boards required to control these installations come from our in-house electrical workshop.

## **Installation**

**Once started with an assignment...  
...continue until completely satisfied**

We will guide you personally in your search for the best lifting or transport solutions. Over the years Lemmens crane systems has built up long-term relationships with all customers.

## **Complete Installation**

Once we begin an assignment, we continue to work on it until you are completely satisfied.

## **Professional Teamwork**

Our wide experience enables us to end up with the most appropriate solutions to meet your requirements.

## **Final Assembly**

The final product is exactly what you requested and is designed to optimize production in your company.
